

## LG Electronics Monitor TV Illuminated by DOMINANT LEDs

*LEDs made by DOMINANT Opto Technologies are illuminating the indicators of a LGE Monitor TV.*

LEDs made by DOMINANT Opto Technologies are illuminating the indicators of a LGE Monitor TV proving that they perfect fit for other applications.

For an unlimited multi-entertainment life, LG Monitor TV M62D series with 1366x768 resolutions offers a full HD resolution and features a built-in TV tuner that employs MPEG4 technology for rendition of movies, games, drama, and sports - just as vivid and realistic as an HDTV. This Monitor TV is designed based on lighting systems using compact LED technology. Right Angle DomiLEDs in special customized colors, blue and yellow, have been chosen as indicator light sources for the buttons of this Monitor TV.

LG Electronics's design team has opted DOMINANT Opto Technologies Right Angle DomiLEDs not only due to their low power consumption and high functionality but also because of the extremely small size for various sideway illumination applications where space is the premium concern.
